Jest

### CAREER OBJECTIVE

Front-End Developer with proven experience at Zillow and HubSpot in helping companies create and maintain a better code base for reusability. Passionate about learning and development with a desire to apply skills on a larger development team at Redfin. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

### WORK EXPERIENCE

#### Front-End Developer

HubSpot: November 2023 – June 2023 – Remote

- Developed membership, event, and legal platform technology solutions, and automated internal processes.
- Generated \$50K+ in annual ad revenue as a system administrator of a large network of websites.
- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
- Developed a node.js server to validate membership and track digital badges being used, saving the company \$22.5K.

#### SOFTWARE ENGINEER I

Zillow – February 2024 - December 2024 – Lagos, NG

- Developed real estate valuation, analytics, and platform technology solutions as part of a 5-person team.
- Designed and developed Zestimate, which manages a volume of 600k+ valuations per month due to click-fee reductions.
- Rebuilt 4-year-old SaaS application in React 15 and Redux with full user experience redesign to release a beta MVP in 8 months.
- Integrated an automated property valuation model fed by machine learning Python data.
